- **Company profile and strengths**
- Upgrading business model and profitability
- Appendix

Management team intro

Founder & CEO
Roi Shigematsu

- Partner, McKinsey & Company, Tokyo Branch, Frankfurt Branch and Chicago Branch, prior to founding the Company in 2018
- Member of the Advisory Board of the Faculty of Engineering, Graduate School of Engineering, The University of Tokyo (current), Member of Keizai Doyukai
- M.S. (Engineering), The University of Tokyo

Advisor
Yutaka Matsuo

- Professor, Artificial Engineering Research Center, Graduate School of Engineering, The University of Tokyo
- President, Japan Deep Learning Association; Expert Member, Council for the Realization of New Capitalism; Chairman, AI Strategy Council
- Outside Director of Softbank Group
- Advisor of the Company since 2018

CFO
Ryoosuke Tane

- After working at McKinsey & Company, worked at Bain Capital (PE fund) on corporate acquisitions and post-acquisition integration
- General Manager, Finance & Administration Division; Director, Neural Group (Thailand) Co.
- MBA from Stanford University Graduate School of Business

CTO
Takahiro Mikami

- Research and development at Nomura Research Institute, engaged in research in areas such as image recognition model ResNet, natural language model LSTM, etc
- Joined the company in 2020 and assumed the position of CTO in 2023
- PhD. in Science from the University of Tokyo, where his research focused theoretical physics

Managing Executive Officer
Masaaki Yamamoto

- Engaged in technology development and new business development for 15 years at Sony, joined our company in 2019
- General Manager of Marketing Business Division, President and Representative Director of Neural Marketing, Inc.
- M.S. in Mechanical and Space Systems, Tokyo Institute of Technology

Managing Executive Officer
Tsubasa Iwakiri

- Joined the Company in 2019 after working for Accenture, Inc.
- General Manager, Digi-Solutions Business Division; President and Representative Director, Neural Engineering Co.
- Graduated from Doshisha University, Faculty of Life Science and Medical Sciences, Department of Biomedical Engineering

Company highlights

**GOOD DESIGN AWARD
2023**

- Listed on the Growth Market of the Tokyo Stock Exchange since August 2020
- IPO in 2.5 years since inception, the **fastest listing among 500 companies in the past five years**^{*1}
- May 2023 Technology Company Sales Growth Ranking Award (214% sales growth over two periods)
- Out of which, achieved **2nd highest growth rate among listed companies**
- Engineers from 7 countries developing many proprietary AI libraries^{*2}
- **20 related patents held, 25 including pending applications**^{*3}
- Develop and provide numerous **unique edge AI-enabled services**
- **Awarded Good Design Award** as a service that supports daily life and improves efficiency through data analysis.

^{*1} M&A Cloud Inc. "Listing Speed Analysis of Approximately 500 Companies Listed in the Last Five Years" ^{*2} Object detection and classification library, depth estimation library using a single camera, eye detection library, group kaishi library, walking mode kaishi library, passer-by attribute estimation library, fashion attribute kaishi library, person detection and authentication library from face images, vehicle license plate recognition library, image generation tool for learning vehicle license plates, lightweight object detection and classification library that can run on smartphones, 3D box shape measurement library, etc. ^{*3} 18 domestic acquisitions, 2 overseas acquisitions, 4 domestic applications pending, and 1 international application pending as of October 31, 2023

Providing various edge AI services with operations throughout Japan and in Southeast Asia

Across Japan
Southeast Asia
12 locations

Group employees
265^{*1}

*1 As of Jun 30th 2023. Excludes executives (Full-time board directors, auditors, executive officers), part-time employees, subcontractors, interns. Includes full-time employees from subsidiaries, Neural Engineering Inc. and Neural Marketing Inc.

Announced strategy for business model transformation in spring 2021

※Excerpted from FY2021 Q1 Financial Results Briefing Material (Published on May 14, 2021)

From fee-based to unit-based sales

In addition to expansion through individual contracts with companies/governments, we aim to accelerate self-propelling sales from generalized services

【Theme 1】 Expansion of co-creation partners

Expand required elements such as sales, maintenance and support, and bidding rights for government through partnerships or mergers and acquisitions as needed.

【Theme 2】 Towards easy-to-use AI services

Pursue ease-of-use of services designed around customer needs.
Aim to achieve 10,000-unit service system, with high AI service quality and operational stability.

【Theme 3】 Commitment to AI technology dev.

Collect and accumulate the industry's leading level of data.
Continue to invest in the dev. of optimal AI logics using proprietary learning technologies, including CG.

Overview of business model transition

Fee-based business model

AI licensing and
contracted development

Handful of large corp.

Profitability
GP margin 90%

Growth Potential
Market size (TAM) is limited to the
development budgets of major customers
making the business unstable

Unit-based business model

Many customers and users

Profitability
GP margin 65%

Growth Potential
Significant increase in the number of
customers, dramatically expanding market
size and improving business stability

• Decline in gross margins
• Far greater market size and stability

Progress of shift from fee-based sales to unit-based sales

Business model transition and reflection on past results

Capabilities acquired

- With edge AI technology at its core, **building out a comprehensive service group** that "visualizes," "monetizes," and "broadcasts information" in physical spaces
- Constructing a business portfolio that **achieves high gross margins and allows for business growth at scale**

AI service development

Developing unique services using edge AI and selling directly to both public and private users

Digi Park

Digi Flow

Building out sales network

Significant expansion of services and sales network through M&A

FOCUS CHANNEL

NETTEN

Scaling business

Scaling and cross-selling services and growing org by 72+ staff

AI display and ad cross sales

BtoB sales cross sales

Announced business model transition

2021

2022

Revised earnings due to decision to forego fee-based projects for large clients

Goodwill impairment loss recorded upon subsidiary merger between Focus Channel and NETTEN Inc.

2023

Impairment loss on fixed assets (servers, etc.) and software assets, and write-down of inventories

Fixed cost optimization activities

Revised results to reflect the impact of taking longer than planned to establish a framework for large-scale organic growth

2024

AI service sales expansion and monetization

- Actively investing in the development of ever-evolving edge AI technologies, and succeeded in building world-class capabilities and a stable operating system
- Incurred impairment losses of obsolete technologies

Temporary investment for growth

Quarterly revenue trajectory

Sales ramp up trend for FY2023 and performance review

FY2023 review and results through Q3

| | Original plan | Results | vs Plan |
|--|--|--|---------|
| Hiring | <ul style="list-style-type: none"> Hiring 70 sales staff and rapidly growing team | <ul style="list-style-type: none"> Achieved net increase of 72 staff out of 3,757 job applications (Results from Jan through Sep) | |
| Ramping up productivity of new hires | <ul style="list-style-type: none"> Ramp up within 3 months of employment | <ul style="list-style-type: none"> Ramping up over 8-9 months, including replace/ reassignment Accumulated training know-how | |
| Setting up system to enable greater scalability | <ul style="list-style-type: none"> Promptly establish sales mgmt. system for biz expansion across 12 branches | <ul style="list-style-type: none"> Full year to train mgmt. staff, and share sales knowledge On track to establish system by end-of-year | |

Although it took more time than planned, we are on track to establish a sales system to scale our AI services and achieve positive operating income

Cost efficiency improvement underway lowering break-even revenue

Cost optimization measures currently underway

- Equipment procurement cost optimization
- Sales productivity improvement
- Review of outsourcing and partial in-house production
- Revamping management processes for indirect expenses (travel, entertainment, etc.) in line with the expansion of the organization's size
- Streamlining HQ expenses

SG&A expenses: Q2 actual 728M yen ⇒ Q3 706M yen (decrease starting)

Operating profit trajectory: Reaching breakeven level in Q4

^{*1} Pro forma operating income. One-time expenses, including upfront investments, such as personnel expenses for new neural marketing hires (headcount increased by 72 from December 31, 2022 to September 30, 2023), job advertisement expenses, training expenses for new web business recruits, audit fees and internal control response expenses related to prior period adjustments, expenses related to security establishment at subsidiaries, and pro forma Operating income excluding the payment of external standard taxation. ^{*2} One-time costs ^{*3} Accounting operating income

Under the new unit-based business model, our marginal profit margin is as high as 56%

Relationship between revenue and operating income (FY2023 results)

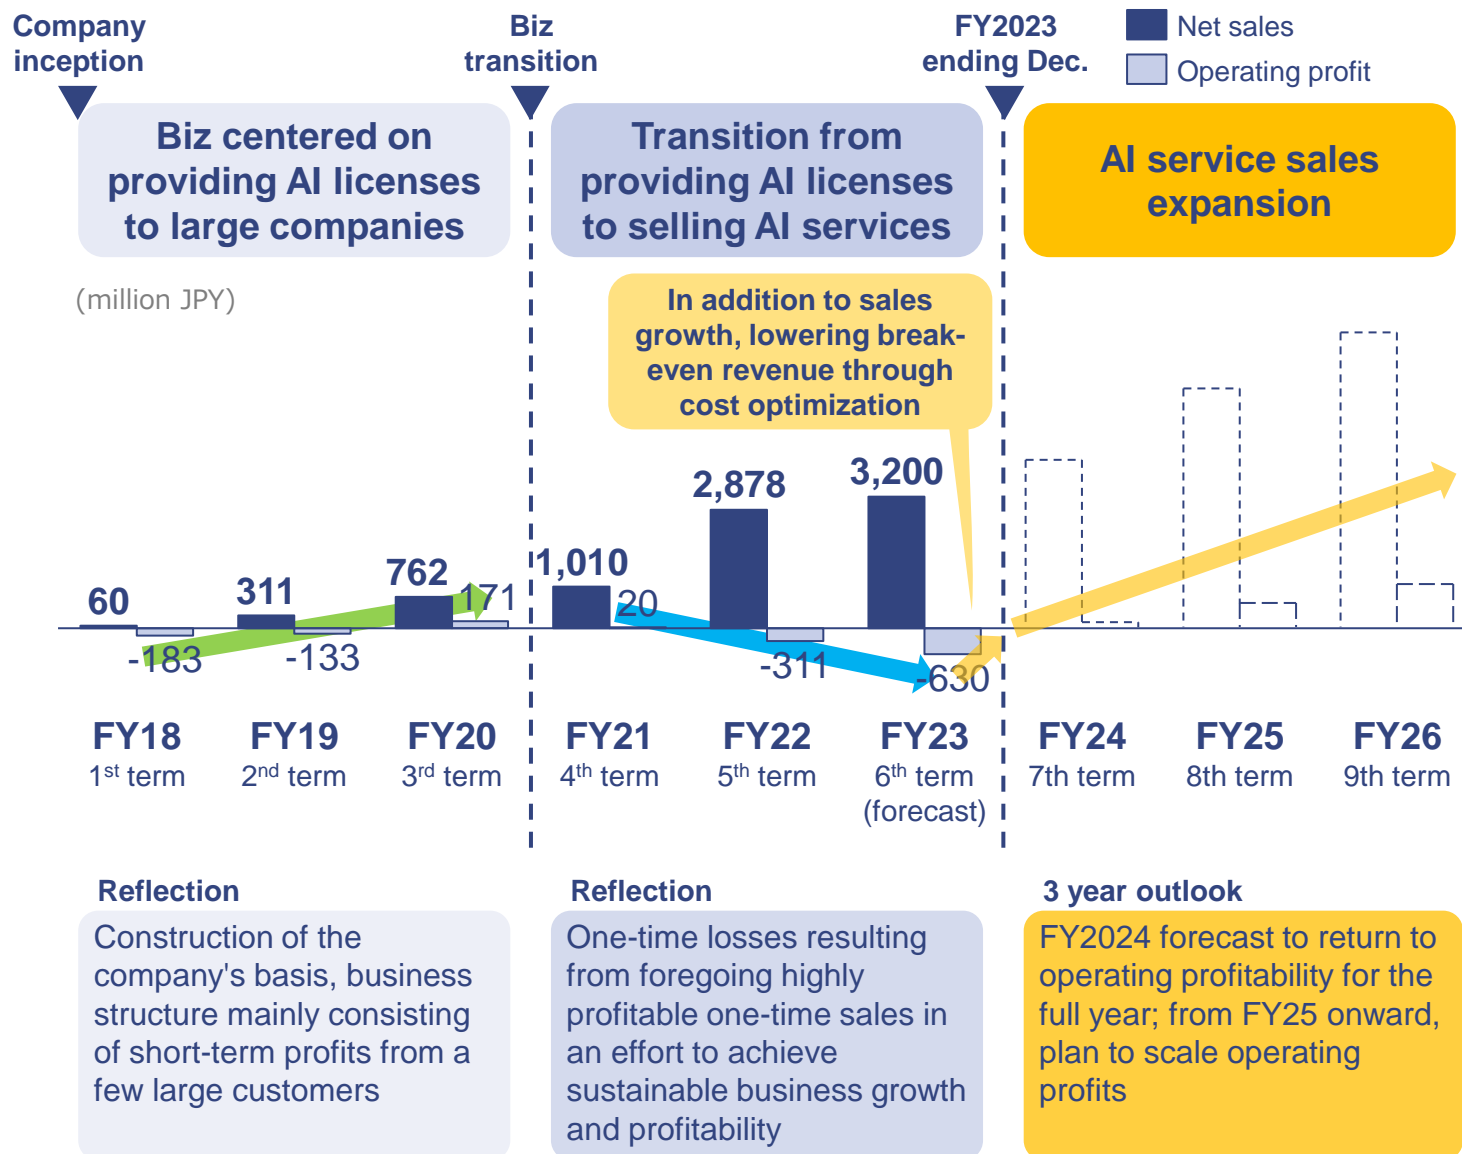

Monthly
Operating profit
(million JPY)

Business model with high marginal profit

- For every 100 increase in sales, operating profit increases by 56% (= **marginal profit margin = 56%**)
- Business model in which **profit growth sensitively follows sales growth** due to high gross profit margins
- Sales are expected to **reach break-even level in FY2023 Q4** due to sales growth trend

Company progressing towards profitability post biz model transition

Building an exciting and inspiring future with AI

The company name "Neural Group" expresses our desire to provide unconventional services that transcend boundaries in a wide range of fields enabled by cutting-edge AI technologies. We will utilize edge AI across both real and virtual spaces to realize an exciting future globally, covering various applications such as AI cameras, digital advertisements, fashion apparel and more.

Management team

| | Name | Career overview |
|-----------------|---|---|
| Board Directors |  Representative Director Roi Shigematsu | Former Partner at McKinsey, working in 11 countries including Japan, Germany, and the U.S as leader in IoT and AI field. Founded Neural Pocket in January 2018 with the goal of realizing the digitization of the real world through AI. He holds a Master's degree in Engineering from the University of Tokyo and is currently a member of the Advisory Board of the School of Engineering. |
| |  CFO Director Ryosuke Tane | He was engaged in private equity investing at Bain Capital Japan. After serving as the Tokyo General Manager of Oyo Technology and Hospitality Japan, he joined Neural Pocket. He currently oversees the group's corporate division and also leads M&A activities. He holds an MBA from Stanford University's Graduate School of Business. |
| |  Director Masaaki Yamamoto | After being involved in the development of DVDs and head-mounted displays at Sony, he led several new businesses and internal startups. After joining the company, he worked in the R&D department and is currently the president of Neural Marketing, Inc. He holds a master's degree from Tokyo Institute of Technology |
| |  External Director Yoichi Yamagishi | After working in the investment banking division of Nomura Securities Co., Ltd. in M&A advisory and public underwriting, he was appointed as General Manager of Public Underwriting Department of Mizuho Securities Co. After retiring from Mizuho Securities, he served as an outside director of D.L.E. Inc. and Laox Co. He is a certified public accountant. |
| |  External Director Maiko Hasumi | After working for Fuji Television Network, Inc. and Fidelity Investment Trust Co. currently fund manager at Ever Rich Asset Management. Currently director and member of the Audit Committee of Z Holdings Corporation (formerly Yahoo! Japan), etc. Appointed outside director of Neural Pocket in 2021. Holds an MBA from Stanford University's Graduate School of Business. |
| Auditors |  Full-time auditor Miho Takemura | After working at Ernst & Young Shin Nihon LLC (EY Ernst & Young Shin Nihon LLC), where she mainly audited securities companies and other financial institutions, she worked as a full-time auditor at IRIDGE Co. Certified public accountant. |
| |  Auditor Toshiki Wakamatsu | After working at Sato Sogo Law Office, he opened Saltus Law Office. He has served as a director of Orchestra Holdings Inc. and Voicy Inc. and has been a corporate auditor of Neural Pocket since 2019. Attorney. Specializes in a wide range of corporate legal matters, including corporate law and the FIEA. |
| |  Auditor Hajime Shirai | After working at Arata Audit Corporation (PwC Arata LLC), Frontier Management Inc. and Deloitte Touche Tohmatsu LLC, he established Grintee Inc. Ltd. Appointed as a corporate auditor of Neural Pocket in 2020. Certified public accountant. |
| Advisor |  Professor Yutaka Matsuo | Professor at the Artificial Intelligence Research Center, Graduate School of Engineering, the University of Tokyo. He is a leading expert in the field of AI and deep learning in Japan. He is also the chairman of the board of the Japan Deep Learning Association and an outside director of Softbank Group Corp. |

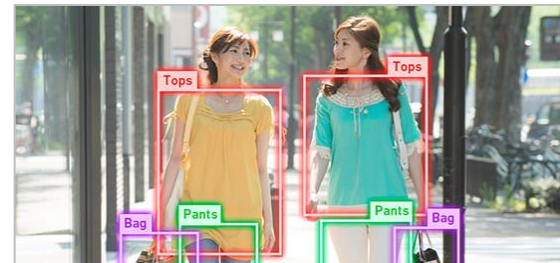

Six key services provided by Neural Group

Analyzing people flow in the city using AI cameras

Unique parking solution using AI cameras

World's first fashion trend analysis enabled with deep learning

Digital signage media in 450 luxury apartments in Tokyo region

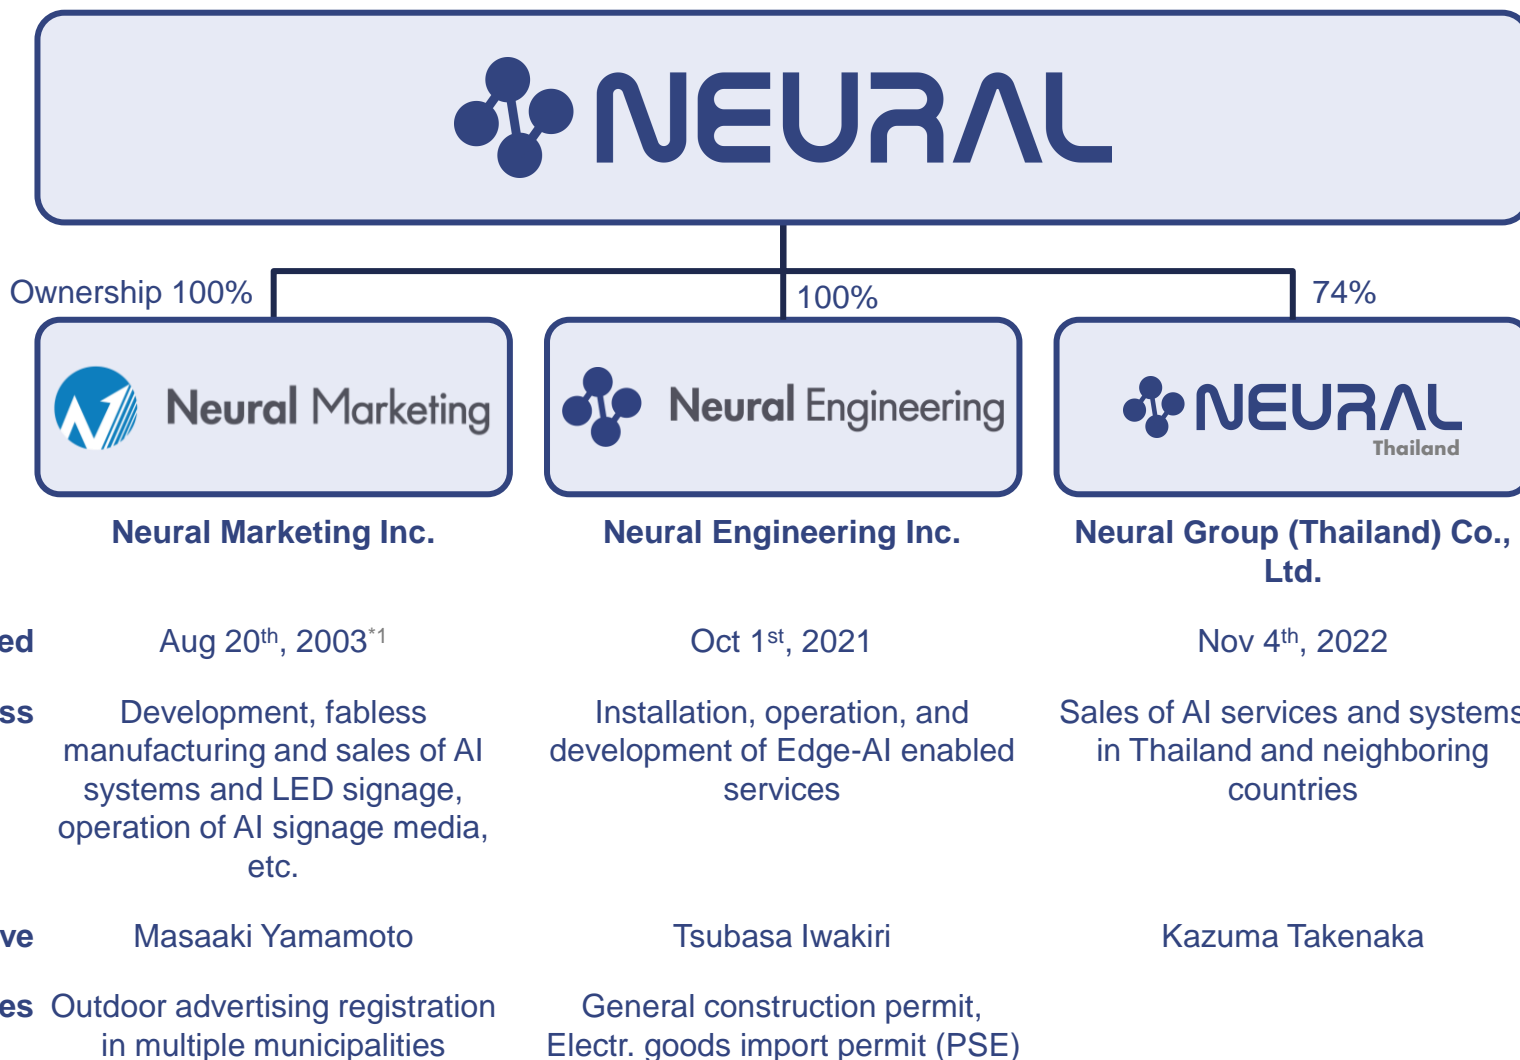

10,000+ LED signage units installed (#1 share in Japan)

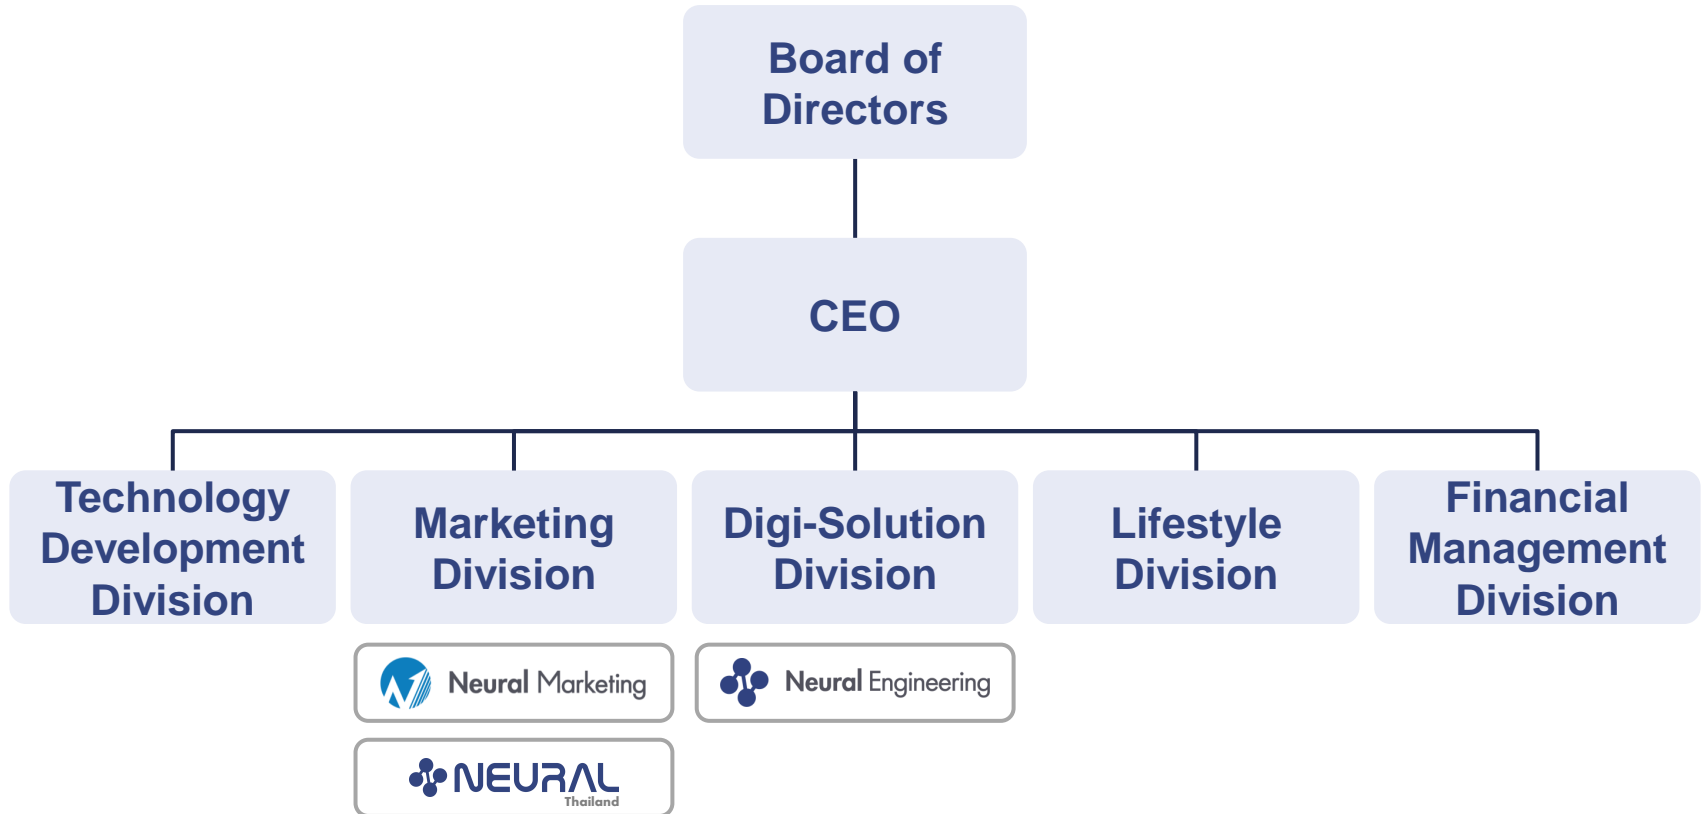

Web page creation and editing service using ChatGPT

Neural Group (as of Sep 30th, 2023)

*1 On Sep 1st, 2022 the company name was changed from NETTEN Inc. to Neural Marketing Inc. The date of incorporation of NETTEN Inc. is stated.

Organization: Since Jan 2022, the company has established a divisional system organized by product/ service

Promoting capital and business alliances with operating companies while ensuring share liquidity by expanding floating shareholders

※Based on shareholders' register as of Jun 30, 2023

Continue to actively pursue further capital alliances with global companies

*1 Sum of 415,000 publicly offered shares upon IPO, 215,800 sold shares during IPO (including over-allotment), and shares sold by pre-IPO investors (e.g., VC investors, angel investors) and management that the company is aware of. *2 Shares held by pre-IPO investors (e.g., VC investors, Angel investors). *3 Shares held by internal board directors.

Trajectory of full-time employees^{*1}: Rapidly expanded headcount for sales staff within Neural Marketing Inc. through H1 achieving hiring plans

^{*1} As of Sep 30th 2023. Excludes executives (full-time board directors, auditors, executive officers), part-time employees, subcontractors, interns. Includes full-time employees from subsidiaries, Neural Engineering Inc., Neural Marketing Inc.

Handling of the material

This document contains forward-looking statements. These statements are based solely on the information available at the time the statements were made. Furthermore, such statements are not guarantees of future results and are subject to risks and uncertainties. Actual results may differ materially from those projected in the future due to changes in the environment and other factors. Factors that may affect the actual results described above include, but are not limited to, domestic and international economic conditions and trends in relevant industries. We are under no obligation to update or revise any of the future information contained in these materials in the event that new information comes to light or future events occur. The information contained in these materials relating to matters other than the Neural Pocket is quoted from public information and Neural Pocket has not verified and does not guarantee the accuracy or appropriateness of such information.
